    - discuss again next meeting

- Wiki
  - <https://github.com/OpenEnergyPlatform/ontology/issues/1106>
    - Ulf was assigned by Mirjam
    - Related issue: <https://github.com/OpenEnergyPlatform/ontology/issues/1355>
      - Ulf added a note explaining the double goal of the adding yourself process:
        - Clearing the contribution workflow and adding oneself to the ontology.
      - Mirjam: For big changes, first discuss (via issue). But not for small issues.
- Reviews
  - also check for language labels and remove them
  - wiki / contributing.md unspecific number / qualification of reviewer
  - <https://github.com/OpenEnergyPlatform/ontology/issues/1106>
  - <https://github.com/OpenEnergyPlatform/ontology/wiki/Pull-request-workflow>

- PR header block:
  - <https://github.com/OpenEnergyPlatform/ontology/issues/1344>
  - The header is appearing and it does not add much to the issue
  - We try to get rid of the header by formatting the header correctly. (EA)
  - If this does not work we get rid of it.
