About Me

Software Engineer with 3+ years of experience specializing in **frontend web development**. Proven expertise in Java, SQL, Svelte, TypeScript, Tailwind CSS, and GraphQL to deliver impactful solutions. Adept at collaborating with teams to achieve business objectives and consistently delivering high-quality products. Seeking new challenges to apply my skills and contribute to innovative projects.

Working Experiences

Holdex

Hong Kong SAR · Remote

Software Engineer

July 2024 – December 2024

- Developed a **Web3 dApp** contributing to a \$600M company valuation, completing the project in **30% less time** than initially planned.
- Collaborated with cross-functional teams to design and implement a **decentralized credit marketplace**, increasing **user engagement by 40%**.
- Ensured seamless integration of **blockchain features** with the front-end interface, reducing integration issues by **25%**.
- Optimized dApp performance, reducing loading times by **30%**, which improved overall user satisfaction.
- Conducted **code reviews** for 100% of the project's modules, ensuring compliance with best practices and reducing bugs by **15%**.
- Designed user-centric interfaces, ensuring **100% responsiveness** and **95% accessibility compliance** across platforms.
- Worked closely with stakeholders to gather requirements, resulting in a **20% reduction in scope changes**.

PT Elisa Camline

Surabaya, Indonesia · Onsite

Software Engineer

November 2021 – September 2024

- Enhanced web-based products by reducing future bugs by **30%** through rigorous testing and optimized SQL scripts.
- Created new front-end features and implemented **automation testing mechanisms**, improving test coverage by **50%**.
- Designed and executed complex SQL queries, streamlining data processing and improving system performance by **25%**.

Projects

- Clearpool Website:** Developed a decentralized credit marketplace for crypto lending using **Svelte, TypeScript, GraphQL**, and **Tailwind CSS**. The link is [The leading decentralized credit marketplace | Clearpool](#).
- Job Finder Web:** Final bootcamp project utilizing **React JS, Tailwind CSS**, and **React Context API** for global state management. For portfolio link is: <https://ananta-final-react.netlify.app>

Education

Petra Christian University

Surabaya, Indonesia

Bachelor of Computer (GPA: 3.63)

July 2017 – March 2021

- Graduated cum laude with a concentration in **Artificial Intelligence** and **Software Development**.
- Relevant Coursework: **Machine Learning, Natural Language Processing, Advanced Software Engineering**.
